SUMMARY

Bachelor's Degree in Software Engineering graduate from Universiti Malaysia Sarawak (UNIMAS). Motivated to learn and grow in the tech industry with proven capabilities to adapt, a strong foundation in computer science concepts, and hands-on experience in front-end development. Seeking opportunities to leverage software expertise to contribute, continuously learn, and improve through real-world projects in a dynamic and collaborative environment.

EDUCATION

Universiti Malaysia Sarawak (UNIMAS)	Kota Samarahan
Bachelor's Degree in Computer Science (Software Engineering)	Oct 2020 - Aug 2024
Cumulative GPA: 3.59/4.00 Dean's Lister	

Universiti Malaysia Sarawak (UNIMAS)	Kota Samarahan
Pre-University (Foundation of Life Science)	Jun 2019 - Jul 2020
Cumulative GPA: 3.78/4.00	

WORK EXPERIENCE

Telebort Technologies Sdn Bhd	Remote
<i>Coding Tutor</i>	Jan 2025 - Present
● Teach beginner-to-intermediate students core coding concepts using an AI-supported, interactive learning platform to build strong programming foundations ● Adapt teaching strategies to individual learning styles, improving student engagement and comprehension in remote sessions ● Support students through 5 hands-on coding projects per program within 6 months, strengthening practical coding and problem-solving skills ● Simplified complex programming concepts using analogies and real-world examples ● Deliver well-organized and effective remote tutoring sessions online tools and Zoom, enhancing the overall learning experience	

X-Fab Sarawak Sdn Bhd	Kuching
<i>Trainee (Software Developer); K-Youth Programme</i>	Aug 2025 - Oct 2025
● Assisted senior colleague in creating system process flowcharts for project documentation, providing clarity to the reporting workflow ● Contributed to a customer reporting system, including the Ship Service for Melexis Email Report, delivering daily reports to internal teams and the client ● Developed and tested Python ETL scripts to automate email reports with data attachments, reducing manual reporting effort ● Built and explored Power BI dashboards using views from SSAS models to visualize customer shipping details, ensuring a standardized format across report types. ● Collaborated with team members to debug, test, and improve existing code, ensuring data accuracy and report reliability	

PROJECT

Ship Service for Melexis - Email Report (AIDA, X-Fab project)

- Contributed in updating and improving Python scripts used for automated email reporting, ensuring accurate and reliable content and attachments for Melexis ship details.

PosturePerfect: Deep Learning Application for Poor Sitting Posture Detection (Final Year Project)

- Leveraged existing pose estimation AI model to create mobile application for poor sitting posture identification and warning to prolonged sitting duration.

Sarawak Pay UI/UX redesign (University project)

- Improved flow, readability, usability, and overall user experience by redesigning Sarawak Pay user interface and creating high-fidelity prototypes using Adobe XD.

Simple e-commerce website (University project)

- Design and developed a website for e-commerce web application implementing user authentication, CRUD functionalities, and database integration.

CERTIFICATE

CompTIA Cloud Essentials+ Certification

Issued by CompTIA, 2025

Google UX Design Professional Certificate

Issued by Google via Coursera, 2024

Google Cybersecurity Professional Certificate

Issued by Google via Coursera, 2024

SKILLS AND LANGUAGE

Technical skills:

Programming - Java, Python, SQL

Web Development - HTML, CSS, JavaScript, PHP

Data and Analytics - Power BI, SQL, SQL Server Management Studio

Design and Prototyping - Figma, Adobe XD

Languages: English (Professional working proficiency); Malay (Native proficiency); Melanau (Native proficiency)
